

Continuous Passive Motion Therapy... *in the home*

Since 1992, Premier Medical Products has been going “the extra step” in providing Continuous Passive Motion (CPM) therapy in the home. Premier Medical Products prides itself on providing a “Premier” experience to each and every referral source and patient. Our staff specializes in CPM therapy and is focused on putting patients first. Our experienced set up teams are orthopedic-related healthcare professionals who provide outstanding patient set up and training.

Premier Medical Products provides:

- Easy intake process. We will verify insurance & benefits and ensure each patient gets what they need.
- Same day set ups at your convenience.
- Healthcare professionals provide all set ups and patient training.
- The highest quality CPM therapy equipment available.
- Physician follow up with status reports (if requested).

The Premier Choice for CPM Therapy

Same Day Set Ups
Available

CPM Referral Process

1. Call your Patient Care Coordinator or fax a Patient Demographic Sheet and prescription/orders to our office at 630 420-0360.
2. One of our Patient Care Coordinators will verify insurance coverage/benefits and then call the patient to confirm the details and schedule delivery and set up by one of our orthopedic specialists.
3. We have several follow up options based on your preference:
 - a. Referral confirmation fax back.
 - b. A friendly office phone follow up confirmation.
 - c. Exception based follow up.

**Direct Billing To Medicare, Workman's
Compensation, Blue Cross Blue Shield
And Numerous Insurance Plans
And Networks.**

Insurance Guidelines

Medicare:

- Knee CPM is covered only for Total Knee Arthroplasty if CPM Therapy begins within 48 hours of surgery. Coverage is limited to 21 days and includes days used in the hospital.

Insurance/Workman's Compensation:

- Knee CPM Therapy is generally covered for Total Knee Arthroplasty (TKA) or a TKA revision for up to 21 days postoperatively.
- Knee CPM Therapy is generally covered for reconstruction of the anterior cruciate ligament (ACL).
- Knee CPM Therapy may be covered for intra-articular cartilage repair procedures of the knee (e.g., microfracture, osteochondral grafting, autologous chondrocyte implantation, treatment of osteochondritis dissecans, repair of tibial plateau fractures).

Patient Care Coordinators are always available to verify insurance coverage and benefits.
